### MAKING THE MOST OF YOUR TELEHEALTH VISIT

There's been a lot of talk about telehealth and virtual doctor visits lately, and if you're looking to learn more about how a telehealth visit with your physician works, then you've come to the right place.

First, let me explain exactly what a telehealth appointment is.

It's a way for you to see your Dr. without having to go to their office.

A telehealth visit uses the internet to connect you with your doctor using a computer, tablet, or smartphone. Other than that, it's not much different than an office visit. Your Dr. can share test results with you like X-ray's or bloodwork. Your doctor can also prescribe medication and answer any health questions you may have.

In this video, we're going to show you how to use your IPAD for a telehealth visit. So, let's get started.
